· Learned React and its components through self-learning to more efficiently develop an app with multiple responsive elements in a page

Simon Says | github.com/drlenny/simon-game | simon-says-app.herokuapp.com
· Individually built an interactive memory game based on "Simon Says"
· An early project built with Javascript, jQuery, CSS, and HTML

PROFESSIONAL EXPERIENCE

Dog Trainer, Come And Train It, Montgomery, TX   March 2018 – January 2020
· Extensive interaction with clients to educate them on the proper expectations to hold for themselves and their dogs and how to maintain them using the training methods that have been conditioned
· Promote the ideals, goals, and success of the company to potential clients to increase sales
· Responsible for ensuring the dogs I train remain sharp and focused on their handler despite any and all distractions

Pet Camp Counselor, Camp Bow Wow, Katy, TX   August 2015 – March 2017
· Responsible for the safety and welfare of a large number of dogs and keeping all yards, equipment, and kennels clean and in prime functioning condition
· Trained to cooperate with coworkers to ensure comfortable environment for every dog and to respond quickly to defuse and mend emergency situations in predetermined and levelheaded fashion
· Make sure that each dog is attended to per family's specific instructions including food preparation, medical needs, and sleeping arrangements and ensure that customers are happy and well informed with our services and their dogs' condition
